SUMMARY

I manage and buy digital media for several enterprise accounts at dentsu Indonesia since July 2022. Current accounts include Smartfren/XLSmart, JD Sports, and Tokopedia/TikTok Shop Indonesia. Before these, I managed XL Axiata, BCA, TikTok Shop SEA (Indonesia, Malaysia, Vietnam, Singapore), INOAC Hiyori, and Korean Airlines.

Day to day, I manage end-to-end paid media strategy and execution across Google, Meta, TikTok, and programmatic platforms. I set up campaigns, optimize them, control budget pacing, present performance insights and recommendations directly to clients in weekly catch-ups, and support media plans for new business.

Track record of driving ROAS and CPA improvements: Smartfren app ROAS from 7x to 62x peak, BCA cost-per-result cut by 50%, JD Sports sustained 10x+ ROAS. I use GA4, GTM, Looker Studio, AppsFlyer, Supermetrics, Excel, and Sheets for analytics and client reporting.

Outside agency work, I advise 10+ SME brands on paid media, lead quality, landing page fixes, WhatsApp lead flows, reporting automation, and practical growth decisions. Ten years of lab analyst work before marketing built a habit of checking setups and verifying data before acting on it.

WORK EXPERIENCE

Senior Biddable Media Specialist, dentsu Indonesia

July 2025 to present | Jakarta

Smartfren / XLSmart: Telco app growth, web acquisition, brand

- Manage brand, web acquisition, and app growth campaigns across Meta Ads, TikTok Ads, and Google Ads.
- Push user acquisitions through app install and web purchase for uSIM and eSIM products.
- Pushed app acquisition ROAS from 7x to a 62x short-term peak in 10 days while daily spend stayed around 25 million IDR. After the spike, ROAS settled at 10-20x. Purchase events outnumbered installs, which I used as a quality signal.
- Monitor attribution, in-app purchase events, cohort data, and acquisition quality through GA4 and AppsFlyer MMP.
- Pace budgets, check event tracking, test creatives and audiences, troubleshoot issues, and deliver results to internal and client teams.
- Regular catch-ups with TikTok, Meta, and Google account managers for campaign updates, new features, and co-optimization.
- Paid media budget over 1-3 billion IDR.

JD Sports / Erajaya Lifestyle: Retail conversion

- Run purchase-focused retail campaigns on Meta Ads Commerce and Google Ads (SEM, AI Max, PMax, Demand Gen).
- ROAS stays above 10x on selected campaigns; peaks go past 100x during promotions.
- Test objectives, product sets, audiences, creative formats, bidding, and budget splits.
- Rotate targeting and creatives regularly to stay ahead of audience fatigue and seasonal shifts.
- Pace budgets, check event tracking, test creatives and audiences, troubleshoot issues, and deliver results to internal and client teams.

Tokopedia / TikTok Shop Indonesia: Tech marketplace

- Run Google Ads and TikTok Ads campaigns for marketplace performance.
- Manage branding campaigns for the platform.
- Pace budgets, check event tracking, test creatives and audiences, troubleshoot issues, and deliver results to internal and client teams.

Biddable Media Specialist, dentsu Indonesia

July 2022 to July 2025 | Jakarta

XL Axiata: Telco performance and brand

- Ran paid media campaigns across Google Ads, Meta Ads, TikTok Ads, X Ads, and DV360 for one of Indonesia's largest telcos.
- Ran Brand Lift Studies on major campaigns. One came back with +3.5% ad recall lift; I used the results to adjust creative and audience targeting for the next flight.
- Read performance through CM360, GA4, AppsFlyer, and Looker Studio to spot problems, pull audience learnings, and recommend next moves.
- Coordinated brand awareness, consideration, and conversion campaigns across platforms.
- Pace budgets, check event tracking, test creatives and audiences, troubleshoot issues, and deliver results to internal and client teams.
- Paid media budget over 1-3 billion IDR.

BCA: Banking acquisition, reporting, brand

- Ran campaigns across Meta Ads, Google Ads, TikTok Ads, X Ads, SnackVideo Ads, DV360, and TTD.
- Cut cost per result by 50%. Conversion rates improved 20% through audience refinement and creative test cycles.
- Contributed to one of BCA's biggest non-direct new-account acquisition campaigns ("Don't Know? Kasih No!"), which later won multiple industry awards.
- Built weekly client reports using Excel, Sheets, Supermetrics, and Looker Studio. Turned platform data into budget, creative, and targeting recommendations the client acted on.
- Tested creative, audience, placement, and bidding variables across platforms. Fed results back into planning for the next campaign cycle.
- Pace budgets, check event tracking, test creatives and audiences, troubleshoot issues, and deliver results to internal and client teams.
- Paid media budget over 1-3 billion IDR.

TikTok Shop SEA: Regional marketplace

- Managed TikTok Ads campaigns for TikTok Shop SEA across Indonesia, Malaysia, Vietnam, and Singapore with $50K+/month budget.
- Tested form-based leads campaigns across markets.
- Created reports, learnings, and case studies across regions.
- Pace budgets, check event tracking, test creatives and audiences, troubleshoot issues, and deliver results to internal and client teams.

INOAC Hiyori: Furniture bed

- Managed Meta Ads CPAS campaigns and tested product set configurations for INOAC Hiyori.
- Pace budgets, check event tracking, test creatives and audiences, troubleshoot issues, and deliver results to internal and client teams.

Korean Airlines: Aviation

- Did planning, configured tag/pixel on their new website, conducted keyword research, and created media plan for PPC campaigns on Google Ads SEM.
- Pace budgets, check event tracking, test creatives and audiences, troubleshoot issues, and deliver results to internal and client teams.

360 Degree Digital Marketing Advisor, Freelance

January 2024 to present | Part-time

- Have advised and managed digital media for more than 10 SME brands across rental mobil, travel agency, retail fashion and accessories, skincare and selfcare, clinical skin and wound care, professional business services, food catering, qurban/aqiqah, and other industries.
- For each brand, I handled the full cycle: listening to their business issues, partnering on strategy, executing campaigns, delivering reports, and recommending next steps.
- Manage 3 to 100 million IDR per month across Meta Ads, Google Ads, TikTok Ads, Shopee Ads, and Meta CPAS. Hit 40x peak ROAS in selected sales periods; 10-20x ROAS in steady months.
- Grew leads 2-3x month over month on selected accounts while keeping the focus on lead quality over cheap fills.
- Fix landing pages, set up WhatsApp lead flows, automate reports, and recommend tools that help business owners see what their spend is doing.

Digital Marketing Associate, Nova Baby

May to July 2022 | Bandung

- Ran Meta Ads CPAS campaigns for Shopee. Hit 4-5x ROAS over 3 months on a 5 million IDR budget.

Laboratory Analyst and QC Officer, Mbrio / AAS Laboratory / Frisian Flag Indonesia / SGS WLN Indonesia

November 2012 to June 2022 | Bogor

- Ran lab analyses on water, air, and food samples using AAS, ICP, spectrophotometry, and other methods. Frisian Flag Indonesia was FMCG; SGS is global testing and certification.
- Ten years of strict QC, documentation, and testing procedures. That discipline carried over directly: I check tracking setups, verify report accuracy, and run tests the same way I ran lab procedures.
- Already managing digital retail brands from Shopify webstores to Meta Ads since 2016, even while working full-time as a lab analyst.

TECHNICAL PROJECTS

Google Ads Budget Guardrail My own creation. Apps Script + Google Sheets system that monitors spend pacing and flags overspend risk across 50+ Google Ads accounts. Killed 10+ hours per week of manual checking and solved a recurring pain point for our team. This tool is now adopted as a standard workflow across dentsu Indonesia's regional accounts, building media operations capability for the team.

Reporting automation Built automated campaign reporting using Google Sheets, Supermetrics, and Apps Script to solve the daily grind of pulling data from multiple platforms. Pulls spend, leads, and sales signals into simple dashboards. Now used as a standard reporting workflow in my current agency.

azzamadie.me Portfolio site I built for campaign proof and career positioning.
